CamConnect™

Synchronize your Mics and Cameras

Lumens®

CamConnect Lite is a complimentary software application which integrates Lumens PTZ camera control with a range of microphone array systems.

CamConnect™ Pro is a new generation technology from Lumens, designed to enhance the UC experience. CamConnect™ Pro dynamically transforms the dial-in experience for remote meeting guests, external conference delegates and students engaged in distance learning.

Device Control and Management Software

Lumens®

Deployment Tool 2.0

Manage multiple media processors and IP cameras over your network.

Companion module

Enable Stream Deck to control various cameras and processors.

OBS Plug-in and Dockable Controller

Allows users to control multiple Lumens IP cameras while using OBS broadcasting software.

Crestron

Crestron Software Module Driver

Integrate Crestron controllers with Lumens media processors and cameras.

Extron

Extron Software Module Driver

Integrate Extron controllers with Lumens cameras.

Q-SYS

Q-SYS Plug-in

Integrate Q-SYS systems with Lumens media processors and cameras.

Camera Control Software

Camera

CamConnect Lite

CamConnect Lite is voice-activated tracking software which integrates Lumens PTZ camera control with a range of microphone array systems.

Camera Controller

Free software that helps the camera operator to monitor and control multiple cameras thru IP and USB.

Virtual Camera 2.0

Lumens Virtual Camera software allows users to connect a Lumens IP camera to the host computer using Ethernet. Just attach a Lumens IP camera to the LAN using a standard network cable and it's now ready for video conferencing.

Document Camera

Ladibug 3.5

Ladibug 3.0

Win / Mac / Chrome OS

Ladibug 4K

With this document camera software, users can capture images or videos of documents or 3D objects and project them onto a screen or display in real-time. The software also provides various features such as annotation tools, image and video recording.
