Church in Gyeonggi Korea

Product: VC-A60S, VS-K20

PTZ Camera VC-A60S are installed in the main church hall to capture speakers and audience for live production and live streaming.

The space of the main church hall is considerable ample that the VC-A60S 30x optical zoom is a critical function for capturing desired views, and the primary connection is via optical fiber

The camera controller VS-KB20 is able to control PTZ through RS232 daisy chain.

"Ministers and church staff are very satisfied with the high image quality, reasonable price, and stability. 30x optical zoom is essential due to space is large."
