Lumens Introduces New Box Camera Product Family

VC-BC601P IP Box Camera with Full HD Image Quality

Hsinchu, Taiwan, March 17th, 2020 – Lumens® Digital Optics Inc. today introduced the new VC-BC601P 1080p 60fps Full HD box camera. The box camera features a professional 8MP sensor that is capable of capturing Full HD video images at 60 fps for a clear view of split-second action. The camera supports multiple common interfaces such as PoE, HDMI 2.0 and 3G-SDI, which enhances the connectivity. In addition, the VC-BC601P offers the convenience of triple-stream (H.264/H.265) video format and can tailor the streams according to the network environment in use. Plus, the class-leading sensitivity assures improved picture quality in low light conditions. With 30x optical zoom, the high performance and versatile VC-BC601P can capture crisp up-close video footage even in large auditoriums or event halls, which is ideal for a wide range of Pro AV applications including eSports, house of worship, and podcasts, etc.

“We are aware of the need for POV cameras,” said Steven Liang, Lumens Dir. of Product Management, “In some situations where space is limited and doesn’t require much pan movement due to limited manpower, our VC-BC601P IP box camera can be selected for any vertical market while having the best image quality. With the trend of AV over IP, we offer multiple interfaces including Ethernet, HDMI and 3G-SDI to provide flexibility for users to transfer images through baseband or IP.”

The VC-BC601P supports Power over Ethernet which simplifies the installation process since only one Ethernet cable can supply power, provide an output image and control the camera. This offers the flexibility needed for an effortless and cost-effective installation. Due to the range of camera control protocols support as well as RTSP, RTMP and SRT, the camera can be integrated into existing broadcast system workflows and offers the possibility for real-time streaming.

Availability:

The VC-BC601P camera is available now. Color options: Black, White.
