

## DC136

### 4K Portable USB Document Camera

The Lumens® DC136 is one of the modern and easy-to-use USB document cameras that Lumens has created. It features a 1/3" 13MP SONY image sensor and larger than the A3 shooting area. Not only does the DC136 deliver vivid images, but it can also capture an extremely close-up view. The signature gooseneck design enables teachers to position the camera head in any direction and even a webcam view. The DC136 empowers teachers and students to share and learn in person or in online classes.

## Key Features

- 4K 30 fps UHD / USB 3.0
- Gooseneck design for 2-in-1 Solution
- Larger than A3 shooting area
- Extreme close-up photography

## Key Feature Details

### Unlock the Power of Distance Learning

The joint-free gooseneck design could capture every aspect of a teaching object, or begin a face-to-face video conference lecture.

### Larger Than A3 Shooting Area

DC136 provides super wide coverage, let user never worry about the size of textbooks or extracurricular reading.

### Embrace Images Details

Crystal clear visuals with rich three-dimensional vision.

### Extreme Close-up Photography

Capture a close-up at a 2.4" (60 mm) distance and observe an object to view fine details.

### Applicable to Major Software

One USB cable to power DC136 and connect with Zoom, Teams, OBS, and other distance learning software.

### Ladibug™ 4K Software

Elevate audience engagement with live annotation, mask, spotlight, and recording functions.
