

Lumens®

New Software

CamConnect

Synchronizing Lumens PTZ Cameras with
Microphone Array Systems

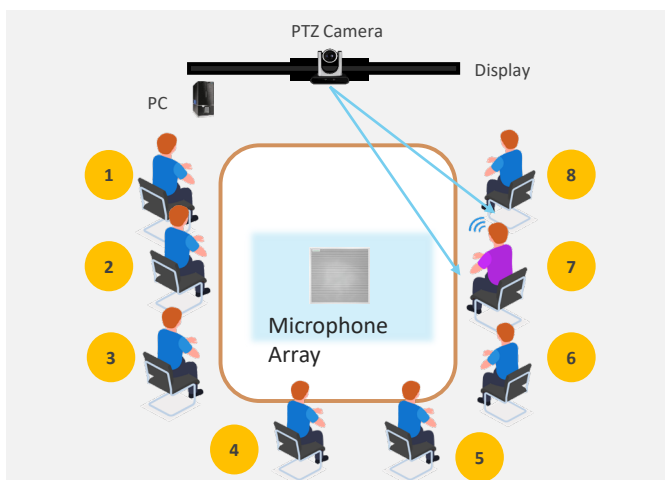

Easy to Install and Configure Turn into a Voice-Tracking Camera

Lumens CamConnect is a complimentary software application which integrates Lumens PTZ camera control with a range of microphone array systems. The software connects selected Lumens PTZ cameras to a range of microphone systems from Shure, Sennheiser and Nureva. This immediately turns your Lumens PTZ camera into a sophisticated voice tracking camera.

SENNHEISER

Up to 8 Angles

Synchronize Your Mics and Cameras

Lumens CamConnect currently supports setting 8 preset positions. By using live data from microphone, Lumens CamConnect software determines the active speaker's position and moves the PTZ camera to the appropriate preset position.

Selected Lumens Cameras

Lumens[®]

CamConnect supports the selected Lumens PTZ Cameras with USB output.

VC-A71P
