

# PTH-01

## Remote Head

Control by IP

Control by RS-232

PoE

### • INTRODUCTION

PTH-01 is engineered to mount Lumens dual lens PTZ cameras in an upright or inverted position. It is designed for use in multi-function spaces where room layouts can change to accommodate a variety of meeting types.

PTH-01 is a motorized and remotely controlled head that allows the camera to be re-oriented via remote control.

### • KEY FEATURES

- A remote head for Lumens tracking camera for multi-purpose room.
- Electric pan adjustment angle: 270°
- Manual tilt adjustment angle: +15° ~ -15°
- Control by RS-232 and IP command.
- PoE powered
