## Recommended installation

# Distance & Height

- Tracking distance: 2 ~ 15 m
- Optimal tracking distance: 8 m

- Vertical mounting height: 2 ~ 3 m
- Optimal installation height: 2.4 m

# Key Features

- AI-Powered Human Face Recognition
- 3 Tracking modes and 2 Framing modes
- Mount upright or inverted
- HDMI, Ethernet, 3G-SDI, USB simultaneous output
- 1080P 60fps with 20x Optical Zoom

# Selling Point

## Everywhere Tracking

In the Everywhere Tracking mode, the camera will continuously track the presenter's movement left and right, forwards and backwards.

# Selling Point

## Stage Tracking

In Stage Tracking mode, the VC-TR40 will pan left and right to follow a presenter within a defined area.

# Selling Point

## Partition Tracking

When the presenter moves inside a user-defined Partition Area, the camera switches to a preset angle and zoom.

When outside a Partition Area, the camera autonomously follows the presenter.

# Selling Point

## Auto Framing

VC-TR40 will dynamically adjust to capture all delegates, re-framing the view if participants join or leave during the session.

## Partition Framing

The camera will go to a preset position when the presenter walks into the partition area. When the presenter walks out the area, the camera will go back to Auto-Framing mode.

# Selling Point

## Gesture Control Tracking Method

The VC-TR40 features advanced gesture control. When the presenter raises their hands, the tracking target will switch automatically. You can also manually change the tracked subject by selecting the individual via the web interface or remote control.

## Flexible Mounting

The VC-TR40 can be positioned upright or suspended from the ceiling installation. When inverted, the camera can re-orient the image and flip the camera controls.

# Selling Point

## Easy to setup tracking mode through webpage

You can easily set up the VC-TR40 tracking setting through the webpage. With the preview main window and panoramic preview, it clearly sees the current capture range and object.

No matter whether you would like to change the tracking mode, set the block or partition area, or switch the tracking object, you can easily modify it through the webpage.
